

AI-Powered Cyber Attack Command

Real-time AI-driven SOC with autonomous threat detection, anomaly scoring, and MCP-powered response automation. This dashboard simulates an intelligent security operations center capable of detecting, explaining, and responding to cyber threats in real time.

Time Ran...

All time (real-time)

Live AI Threat Status

Real-time alert generated by AI when a high-risk attack is detected.

CRITICAL: root (brute_force_attempt)

Max Threat Level

Highest risk score observed in the selected time window.

100

Live Threat Feed

Raw incoming security events being processed by the AI engine.
